High-trajectory launchings from Gaza Strip and Sinai

Throughout October 2016 one rocket and one mortar shell were launched** from the Gaza Strip towards Israel (within 1 attack), compared to one rocket in September.

****Clarification:** The number of launchings is the number of rockets/mortar shells actually launched during one high-trajectory fire attack. For example: one attack may include a salvo of three launchings, that is, three rockets/ mortar shells, and so it will be counted as one attack and three launchings.
